

WELCOME to IPC-IG

Delivering research that helps people improve their lives and supports governments develop policies for the attainment of inclusive growth.

Building opportunities for South-South learning.

Capacity development and training.

International
Policy
Centre for Inclusive Growth

The International Policy Centre for Inclusive Growth (IPC-IG)

is a global research and training facility. Our work is targeted at ensuring the participation of everyone in the growth process and in the sharing of its benefits. IPC-IG facilitates **South-South learning** in innovative programmes and initiatives with the aim of equipping practitioners from developing countries with the skills necessary to formulate **socially inclusive policies** and to learn from **successful policy experiences** in the South.

PUBLICATIONS

All publications are available at:

www.ipc-undp.org

What is Inclusive Growth?

Inclusive growth is a growth process which yields broad-based benefits and ensures **equality** of opportunity and **access to the benefits** of growth. Inclusive growth means growth that is **sustainable** and generates new **productive opportunities**. Globally, it means that economic and political playing fields must be leveled so that **everyone** can participate in, contribute to, and benefit from global growth.

A Few Results

More than **200** innovative publications already released by IPC-IG.

189 countries are part of the IPC-IG's knowledge-sharing network.

9 publication series are regularly launched by the IPC-IG.

Training Sessions and Seminars and Study Tours organised by IPC-IG have already involved more than **7.000** representatives of around **50** developing countries.

More than **100** Advisory Missions have been carried out by IPC-IG researchers to developing countries.

More than **1500** research centres are partners of IPC-IG in **106** developing countries.
